

Technology Solutions

Better Production with Integrated choices

Choose a proven team of Dental Technology Specialists. Whether adding or replacing computers in your office, or introducing software, intra-oral cameras, and digital x-ray products to your treatment rooms, enjoy the confidence that comes from working with knowledgeable technicians.

We offer many choices

- Practice Management Software
- Clinical / Imaging Software
- Digital X-ray, Intra-oral Sensors
- Pan/Ceph Sensors
- Phosphor Plate Scanning Systems
- special mounts and arms
- Software Training
- Technology Training

Atlanta Dental believes YOU should decide which software, cameras, sensors and related digital products work best in your hands. Atlanta Dental has expanded your CHOICES instead of taking them away, now, and in the future.

"I will never forget what your team did for me and my office. Kudos to all and again my express thanks and gratitude for a job well done." — Dr. Chris Adkins

For all your dental technology needs contact your Atlanta Dental Sales Representative or call 877.614.0597.
