2. Hazard(s) Identification

**Danger**

Causes severe skin burns and eye damage

Do not breathe in dust or mist.
Wash hands thoroughly after handling.
Wear protective gloves.

If SWALLOWED: Rinse mouth. Do NOT induce vomiting.
If ON SKIN: Remove immediately all contaminated clothing. Rinse skin with water.
If INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing.
Immediately call a POISON Center or physician.
If IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do so. Continue rinsing.
Store locked up.
Dispose of contents/container in accordance with local regulations.

comfortable for breathing. Immediately call a poison center or if symptoms persist, consult physician. Ingestion IF SWALLOWED: Rinse mouth. Do NOT induce vomiting. If symptoms persist consult physician. Other Not Applicable Not Applicable
Note to Physicians (Treating, Testing and Monitoring): Treat symptomatically.

5. Fire and Explosion Data

Flashpoint Method: Not Applicable Flammable (Explosive) Limits in Air LEL: Not EstablishedUEL: Not Established
Autoignition Temperature: Not Applicable Flammability Classification: Not Applicable
Flame Propagation or Burning Rate (for Solids): Not Applicable Properties Contributing to Fire Intensity: Not Applicable
Extinguishing Media: Use extinguishing media suitable for surrounding area. Extinguishing Media to Avoid: Water with full jet.
Protection and Procedures for Firefighters: Firefighters should wear self-contained respiratory protective devices. Unusual Fire and Explosion Hazards: Formation of toxic gases is possible during heating or in case of fire.

6. Accidental Release Measures

Containment Techniques: For Liquid: Absorb with liquid binding material (sand, vermiculite, diatomite, acid binders, universal binders or sawdust). For Gel, since material is a paste, scoop up bulk material and place in a suitable waste container.
Spill/Leak Clean-up Procedures and Equipment: Absorb with liquid binding material (sand, vermiculite, diatomite, acid binders, universal binders or sawdust). Scoop up bulk material and place in a suitable waste container.
Evacuation Procedures: Not Applicable Special Instructions: Not Applicable Reporting Requirements: Not Applicable

7. Handling and Storage

Handling Practices and Warnings: Product is intended for dental use only. Handling of this product should be by trained dental healthcare professionals only. Observe normal care for working with chemicals. Storage Practices and Warnings: Store only in the original package. Keep package tightly sealed. Store in a dry area. Store away from food and beverages.

8. Exposure Control / Personal Protection

Ventilation: None required during normal intended use of this product Other Engineering Controls: Not Applicable
Routes of Entry Eye/Face Safety Glasses Not Applicable
Skin The glove material has to be impermeable and resistant to the product. Not Applicable
Inhalation Not required for normal volumes used in Dental office. Not Applicable
Body Protection Protective work clothing Not Applicable
General Hygiene Considerations and Work Practices: Keep away from foodstuffs, beverages and feed. Immediately remove all soiled and contaminated clothing. Wash hands before breaks and at end of work. Avoid contact with the eyes and skin.
Protective Measures During Repair and Maintenance of Contaminated Equipment: Not Applicable
Other Protective Measures and Equipment: Not Applicable

9. Physical and Chemical Characteristics

Appearance: Liquid is clear. Gel is blue colored paste. Odor: Acrid.
Normal Physical State: Liquid, Gel is a paste. Melting Point: Not Applicable
Specific Gravity: 1.3 g/cm³ Solubility in Water: Not Soluble pH: < 2
Vapor Pressure (mm Hg): Not Established Vapor Density (AIR=1): Not Applicable Evaporation Rate (Butyl Acetate =1) Not Applicable

10. Stability and Reactivity Data

Incompatibility (Materials to Avoid): Not Applicable
Hazardous Products Produced During Decomposition: Not Applicable.
Hazardous Polymerization: ☒ May Occur ☒ May Not Occur Conditions to Avoid: High Temperatures, ignition sources.
Stability: ☒ Stable ☒ Unstable Conditions to Avoid: High Temperatures, ignition sources.

11. Toxicological Information

Toxicity Data, Epidemiology Studies, Carcinogenicity, Neurological Effects, Genetic Effects, Reproductive Effects, or Structure Activity Data: Material is a corrosive acid and as such is irritating to skin and mucous membranes.
Emergency Overview: Material is corrosive.

Routes of Exposure Signs and Symptoms Single, Repeated, or Lifetime Exposure Severity (Mild, Moderate, Severe) Acute and Chronic Health Effect(s) Target Organ(s)

12. Ecological Information

Toxicity Data, Environmental Fate, Physical/Chemical Data, or other Data Supporting Environmental Hazard Statements: Water Hazard class1 (Self-assessment): slightly hazardous for water. Do not allow undiluted product or large quantities of it to reach ground water, water streams or sewage system. Toxic to fish. Also poisonous for fish and plankton in water bodies. Toxic for aquatic organisms.

13. Disposal Considerations

Regulations: Must not be disposed of together with household garbage. Do not allow product to reach sewage system. Dispose of material as solid waste in a closed container. Dispose of in accordance with Federal, State and Local regulations

Properties (Physical/Chemical) Affecting Disposal: Dispose of material as solid waste in a closed container.

14. Transport Information

Regulated for Shipping: Yes DOT Shipping Name: Corrosive Liquid, n.o.s. (contains Phosphoric Acid) Packing Group: II

Do Changes in Quantities, packaging, or shipment method change product classification? Yes

Hazard Class: 8 UN Identification Number: 1760

15. Regulatory Information

This product has been classified in accordance with the hazard criteria of the Globally Harmonized System of Classification and Labeling of Chemicals and the SDS contains all of the information required by the Canadian Controlled Products Regulations.

U.S. Federal Regulations: CERCLA 103 Reportable Quantity: CAS# 7664-38-2 Phosphoric Acid 5000 pounds (2268Kg) Many states have more stringent release reporting requirements. Report spills required under federal, state and local regulations

Section 313 Toxic Chemicals: This product contains the following chemicals subject to Annual Release Reporting Requirements Under SARA Title III, Section 313 (40 CFR 372): None

Section 302 Extremely Hazardous Substances (TPQ): None

EPA Toxic Substances Control Act (TSCA) Status: All of the components of this product are listed on the TSCA inventory.

U.S. State Regulations California Proposition 65: This product does not contain any chemicals, which are on the California Proposition 65 list.

Canada WHMIS, Workplace Hazardous Materials Information System: This product is not a controlled product.

International Regulations: Canadian Environmental Protection Act: This product is a medical device and not subject to chemical notification requirements.

European Community Labeling: Not a dangerous preparation. These R and S phrases apply to base and catalyst: R36/38 Irritating to eyes and skin. R51/53 Toxic to aquatic organisms, may cause long-term effects in the environment. S26 Incase of contact with eyes, rinse immediately with plenty of water and seek medical advice. S28 After contact with skin, wash immediately with plenty of water. S37 Wear suitable gloves. S57 Use appropriate container to avoid environmental contamination. S60 This material and its container must be disposed of as hazardous waste. These R and S phrases apply to catalyst: R41 Risk of serious damage to eyes. R50/53 Very toxic to aquatic organisms, may cause long-term effects in the environment. S24 Avoid contact with skin.

European Inventory of New and Existing Chemicals Substances (EINECS): This product is a medical device and not subject to chemical notification requirements. Phosphoric Acid is known as EINECS #: 231-635-2 and CAS# 7664-38-2.

Other: Not Applicable.

16. Other Information

To the best of our knowledge this product does not contain gluten, wheat grains, flaxseed, natural rubber, or natural latex. All components are synthetically produced; none are derived from animal products. This information is based on our present knowledge. However, this shall not constitute a guarantee for any specific products features and shall not establish a legally valid contractual relationship. The attached safety data sheet covers the dangers and measures to be taken when large quantities of material are released, for example due to accidents during transport or storage by the dealer. For quantities of material typically used in clinical practice, information necessary for safe use and storage of the product is given in the DFU.

2. Hazard(s) Identification

- **Warning**
  - Highly Flammable Liquid and Vapour

- **Warning**
  - Causes Skin Irritation

Keep away from heat/sparks/open flames / hot surfaces.
No smoking.
Keep container tightly closed.
Wear protective gloves/eye protection/face protection.
Ground / Bond container and receiving equipment.
Use explosion-proof electrical lighting equipment.
Use only non-sparking tools.
Take precautionary measures against static discharge.
IF ON SKIN or Hair: Remove / take off immediately all contaminated clothing. Rinse skin with water / shower.
In case of fire: Use CO₂ sand or extinguishing powder.
Wash hands thoroughly after handling.
Wear protective gloves.
IF ON SKIN: Wash with plenty of soap and water.
If skin irritation occurs: Get Medical Advice/attention.
Take off contaminated clothing and wash before reuse.

6. Accidental Release Measures

- **Containment Techniques:** Wear protective clothing. Absorb with liquid binding material (sand, vermiculite, diatomite, acid binders, universal binders or sawdust). Scoop up bulk material and place in a labeled plastic or metal container.
- **Spill/Leak Clean-up Procedures and Equipment:** Wear protective clothing. Absorb with liquid binding material (sand, vermiculite, diatomite, acid binders, universal binders or sawdust). Scoop up bulk material and place in a labeled plastic or metal container. Avoid gross skin contact to minimize the possibility of contact dermatitis to susceptible persons. Ensure adequate ventilation.

7. Handling and Storage

- **Handling Practices and Warnings:** Handling of this product should be by trained dental healthcare professionals only. Observe normal care for working with chemicals.
- **Storage Practices and Warnings:** Store in a well-ventilated place. Keep cool. Store only in the original package. Keep package tightly sealed. Protect from exposure to direct light. Store away from food and beverages.

8. Exposure Control / Personal Protection

- **Ventilation:** None required during normal intended use of this product.
- **Other Engineering Controls:** Not Applicable
- **Personal Protective Equipment (PPE) for Normal Use:** Not Applicable
- **PPE for Emergencies:** Not Applicable
- **Eye/Face:** Safety Glasses
- **Skin:** The glove material has to be impermeable and resistant to the product.
- **Inhalation:** Not required for normal volumes used in Dental office.
- **Body Protection:** Protective work clothing

9. Physical and Chemical Characteristics

- **Appearance:** Light yellow liquid.
- **Odor:** Acetone odor.
- **Normal Physical State:** Low viscosity liquid
- **Melting Point:** Not Determined
- **Boiling Point:** 54.2°C (129.6°F)
- **Specific Gravity:** ~0.9 g/cm³
- **Solubility in Water:** Partially
- **Vapor Pressure:** 233 mbar @ 20°C
- **Vapor Density (AIR=1):** Not Applicable
- **Vapor Pressure:** 233 mbar @ 20°C
- **Other:** Not Applicable

10. Stability and Reactivity Data

- **Incompatibility (Materials to Avoid):** Visible light, high temperatures, strong acids, strong oxidizing agents.
- **Hazardous Products Produced During Decomposition:** Methacrylates, acrylates, carbon dioxide, carbon monoxide, peroxides and irritating gases.
- **Hazardous Polymerization:** Not May Occur
- **Conditions to Avoid:** High Temperatures, ignition sources.
- **Stability:** Stable
- **Conditions to Avoid:** High Temperatures, ignition sources.

11. Toxicological Information

- **Emergency Overview:** Material is flammable. Material is irritating to eyes, respiratory system and skin.
- **Toxicity Data:**
  - **Epidemiology Studies:** Carcinogenicity, Neurological Effects, Genetic Effects, Reproductive Effects, or Structure Activity Data:
  - **Product:** is an irritant to skin and mucous membranes. The unpolymerized product may be an irritant to the skin in susceptible persons. On the eye the product has an irritating effect. Sensitization: Repeated or prolonged contact with the unpolymerized material may cause sensitization for persons allergic to acrylates and methacrylates. This product shows the following dangers according to internally approved calculation methods for composite materials: Irritant.

<table>
<thead>
<tr>
<th>Route of Exposure</th>
<th>Signs and Symptoms</th>
<th>Single, Repeated, or Lifetime Exposure</th>

</tr>
</tbody>
</table>
Inhalation: Inhalation of high concentrations may cause central nervous system effects characterized by nausea, headache, dizziness, unconsciousness and coma. Repeated: Chronic inhalation may cause effects similar to those of acute inhalation. Causes respiratory tract irritation. May cause motor incoordination and speech abnormalities. Ingestion: May cause irritation of the digestive tract. Other: Central nervous system: Not Applicable

Medical Conditions Aggravated by Exposure: Open sores and wounds of the skin. Individuals with known sensitivity to methacrylates, acrylates, or urethane dimethacrylate resin used in Dental restorative products.

Carcinogenicity: Not listed. IARC monographs: Not listed. OSHA regulated: No. All components of this product are in compliance with the inventory listing Requirements of the U. S. Toxic Substances Control Act (TSCA) Chemical Substance Inventory.

Potential Environmental Effects: Do not allow to enter sewers/surface or ground water.

NFPA Hazard Classification Ratings (Scale 0-4) Health = 1, Fire = 3, Reactivity = 0 Specific Hazard = None

12. Ecological Information

Toxicity Data, Environmental Fate, Physical/Chemical Data, or other Data Supporting Environmental Hazard Statements: Harmful to fish. Harmful to aquatic organisms.

13. Disposal Considerations

Regulations: Must not be disposed of together with household garbage. Do not allow product to reach sewage system. Dispose of material as solid waste in a closed container. Dispose of in accordance with Federal, State and Local regulations.

Properties (Physical/Chemical) Affecting Disposal: Dispose of material as solid waste in a closed container. Dispose of in accordance with Federal, State and Local regulations.

RCRA P-Series: None Listed. RCRA U-Series CAS#67-64-1: Waste Number U002 (Ignitable Waste)

14. Transport Information

Regulated for Shipping: Yes Proper Shipping Name: Acetone Solution Packing Group: II

Do Changes in Quantities, packaging, or shipment method change product classification? Yes

Other: Not Applicable

15. Regulatory Information

This product has been classified in accordance with the hazard criteria of the Globally Harmonized System of Classification and Labeling of Chemicals and the SDS contains all of the information required by the Canadian Controlled Products Regulations.

U.S. Federal Regulations: CERCLA 103 Reportable Quantity: RQ is 5,000 pounds (2268Kg) for CAS# 67-64-1 Acetone. Report spills required under federal, state and local regulations. Many states have more stringent release reporting requirements.

RCRA U-Series Hazardous Waste Code for CAS# 67-64-1 Acetone: U002

Section 313 Toxic Chemicals: This product does not contain any chemicals subject to Annual Release Reporting Requirements Under SARA Title III, Section 313 (40 CFR 372).

Section 302 Extremely Hazardous Substances (TPQ): None

EPA Toxic Substances Control Act (TSCA) Status: All of the components of this product are listed on the TSCA inventory.

U.S. State Regulations California Proposition 65: This product does not contain any chemicals, which are on the California Proposition 65 list.

Federal Regulations: The product has been classified and marked in accordance with directives on hazardous materials. Hazard Symbol: Flammable Water Hazard class I (Self-assessment): slightly hazardous for water. SARA Codes: CAS # 67-64-1 Acute, chronic, flammable.

International Regulations: Hazard Symbol: Flammable XI F Risk Phrases: R11 Highly Flammable, R36/37/38 Irritating to Eyes, respiratory system and skin. R52/53 Harmful to aquatic organisms, may cause long-term adverse effects in the aquatic environment. R67 Vapors may cause drowsiness and dizziness. Safety Phrases: S9 Keep container in well-ventilated place. S16 Keep away from sources of ignition – No Smoking. S26 In case of contact with eyes, rinse immediately with plenty of water and seek medical advice. S28 After contact with skin wash immediately with plenty of water. S61 Avoid release to the environment.

Other: Canada WHMIS for the acetone, classification of B2, D2B. Acetone CAS#67-64-1 is on the Canadian Ingredient Disclosure List.

16. Other Information

To the best of our knowledge this product does not contain gluten, wheat grains, flaxseed, natural rubber, or natural latex. All components are synthetically produced; none are derived from animal products.

This information is based on our present knowledge. However, this shall not constitute a guarantee for any specific products features and shall not establish a legally valid contractual relationship.
